

Mobile Storage & Dispensing Tank for AdBlue

Convenient, flexible, AdBlue tanks with 'go anywhere' capability

Designed to be strapped securely to the back of almost any pickup truck, Carbery Mobi Blue can be used to transport AdBlue to plant and equipment on-site which minimises downtime, maximises productivity and eliminates the requirement for drums, cans and barrels on-site.

Specifications		
Capacity	235L	430L
Length	1150mm	1150mm
Width	800mm	800mm
Height	495mm	785mm

Benefits:

- Portability - Carbery Mobi Point fuel tanks can go where bowsers, barrels and tankers cannot
- Strong tough and durable - every Carbery Mobi Point fuel tank is manufactured from a specialist polymer with excellent impact resistance characteristics
- Manufactured from corrosion resistant materials, Mobi Point fuel tanks will never, rust or corrode and are fully recyclable
- Reduced risk of spillage when compared with jerry cans, cans and drums;

Lightweight and easily handled, Carbery Mobi Points cleverly fit within a standard pallet space making them easy to transport too.
